BASIC INFORMATION

I am a 18 years old, motivated, open-minded, development-oriented student in International Black Sea University. Since childhood, computer technologies attract me. At the age of 14, i started learning programming languages such as HTML, CSS, Javascript etc. and from that time im trying to widen knowledge of programming languages.

EDUCATION AND TRAININGS

Graduated N72 Tbilisi Public School (2020);

"Level One" Project, Experiencing Front-end (2021 March - 2021 September)

Entered the International University of the Black Sea, IBSU, Faculty of Informatics (English-speaking faculty), (2020);

Successfully passed the training organized by the Georgian Innovation and Technology Agency - Technopark: "How Fablab works in the direction of "laser cutter", (2018);

Mathematics Festival organized by the educational organization "Everest", I was awarded a special certificate for active participation (for the rapid assembly of the Rubik's Cube), (2018);

Went to the Student-Youth Palace for IT programming and web design study circles, (2015-16);
